

Class Set – Do not write on this sheet! Thanks!

Party Platforms

In Their Own Words

Complete the chart on page 2 of your Unit 2 Study Guide by following these directions. You may want to preview the related questions on page 3 before you begin.

After selecting issues that interest you and your partner, compare the Democratic and Republican platforms. In the chart, you will briefly record what each party's platform says about the issues.

You may find that one party addresses the issue, but the other does not. It is rare, but possible. If this happens, simply state that in your chart. Include a comment about why you think they decided not to address the issue. Make sure, however, that you have thoroughly examined the platform for that particular issue.

Even though you are free to select the issues, some requirements do apply.

1. Include your public policy issue.
2. Public policy issues can be classified in many ways. For this exercise, you must have an issue for each category of these categories:
 - Social
 - Economic
 - National Security
 - Immigration
